

USER INTERFACE DESIGN

ROLL NO : 240701581

NAME:VELVIZHI M

EXP NO 6 : Experiment with different layouts and color schemes for an app.

Collect user feedback on aesthetics and usability using

GIMP(GNU Image Manipulation Program (GIMP))

Aim :

To design two mobile app pages using black and white layouts (wireframes) in **GIMP** and evaluate their usability and structure through user feedback.

Tools Required :

- GIMP
- Computer System
- Google Forms / Survey Tool

Theory :

Wireframing is a basic step in UI design where layouts are created using simple black and white structures without colors. It helps focus on:

- Layout arrangement
- User navigation
- Element placement

Black and white designs remove distractions and allow designers to evaluate usability clearly before applying colors.

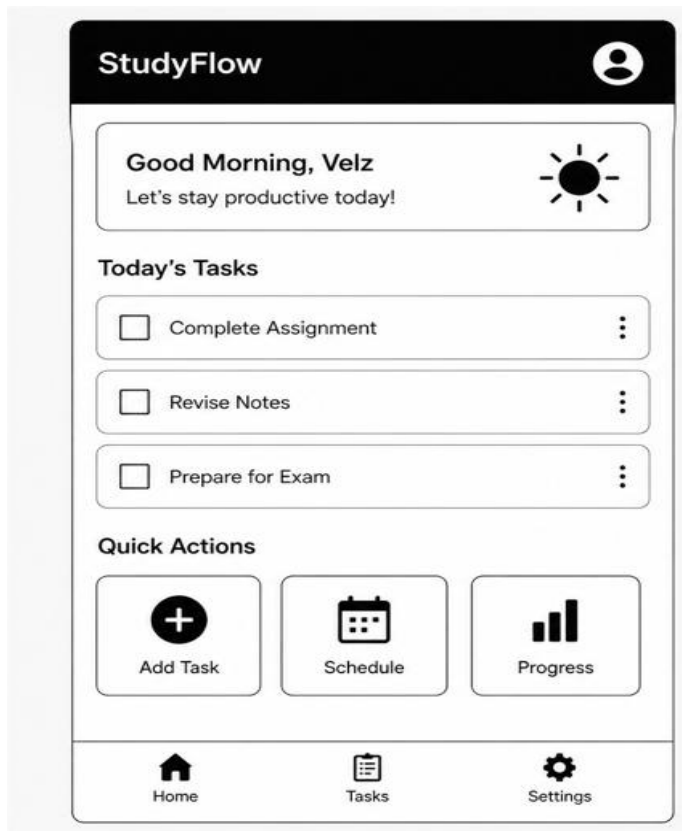

Procedure

Step 1: Open GIMP

- Launch GIMP software
- Create a new file with size **1080 × 1920 pixels**

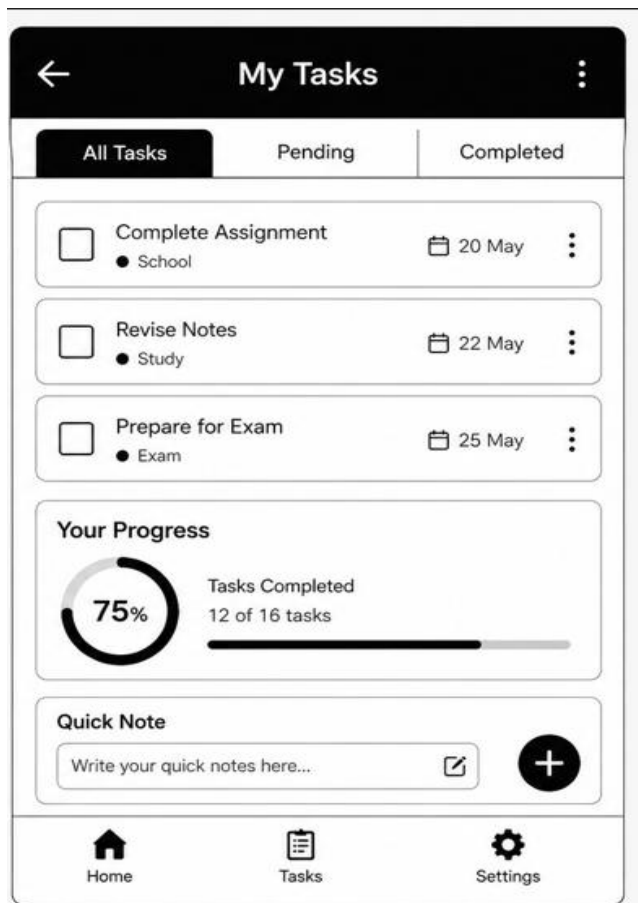

Step 2: Create Page 1 (Home Screen)

- Draw header section using rectangle tool
- Add:
 - App name: *StudyFlow*
 - Profile icon
- Create sections:
 - Welcome message
 - Task list
 - Quick action buttons
- Add footer navigation:
 - Home
 - Tasks
 - Settings

Step 3: Create Page 2 (Task Screen)

- Create header with title: *My Tasks*
- Add tabs:
 - All Tasks
 - Pending
 - Completed
- Design task cards:
 - Task name
 - Date
 - Checkbox
- Add:
 - Progress section (75%)
 - Quick note section

Step 4: Apply Black & White Theme

- Use only:
 - Black
 - White
 - Grey shades
- Avoid colors to maintain wireframe style

Step 5: Use Layers

- Separate layers for:
 - Header
 - Cards
 - Text
 - Buttons

Step 6: Export Design

- Export both pages as:
 - Page1.png
 - Page2.png

Step 7: Collect Feedback

- Share designs with users
- Ask questions:
 - Is layout easy to understand?
 - Are elements properly arranged?
 - Is navigation clear?

Step 8: Analyze Feedback

- Observe user responses
- Identify improvements needed

Observation :

- Users easily understood layout due to simplicity
- Black and white design improved focus on structure
- Navigation icons were clear and intuitive
- Task sections were easy to read

Result :

The black and white wireframe layouts successfully demonstrated the structure and usability of the application. Users found the design simple, clear, and easy to navigate.
